NORMA Group names Mr. John Stephenson to Chief Operating Officer (COO)

The Board of Directors of NORMA Group elected John Stephenson to the position of Chief Operating Officer (COO), effective September 14, 2009. John Stephenson will be placed in charge of the Operation division of NORMA Group.

John Stephenson has been responsible to date as Vice President of Operations with Hayes-Lemmerz, one of the worlds leading supplier for development of steel and aluminium wheels. In this position he was responsible for all aspects of Operations and Technology in Europe, Asia and Africa. Other stations in his résumé comprise leading positions in enterprises such as Textron Fastening Systems, APW Electronics and Valeo.

"In John Stephenson, we are delighted in having found a highly competent and experienced candidate for the position of COO. We believe that he will successfully fill this demanding position and would like to wish him a good start at NORMA Group." commented Werner Deggim, CEO of NORMA Group.

John Stephenson, NORMA Group's new COO

NORMA Group is the global leading system manufacturer in the connecting technology domain, providing high value-engineered products and solutions for the industry, marine, aviation and commercial as well as passenger vehicles applications. NORMA Group develops, produces and delivers client specific solutions for the most diverse and complex demands of the industry under well known brand names ABA®, NORMA®, Breeze®, Serflex®, Serratub®, TERRY® and Torca®. NORMA Group's global presence, decades of know-how and complete in house system solutions contribute to its customers' success and satisfaction. That's NORMA's strength!
